

## **ENGELA VAN DER KLASHORST, University of Pretoria, SouthAfrica**

Hallo! My name is Engela van der Klashorst and I represent the University of Johannesburg as PhD student here in Olomouc. I am currently employed at the University of Pretoria, South Africa, lecturing in Human Movement Sciences, specialising in Sport Sociology and Community Development.

I am involved in community sport and recreation programming and in this role I assist marginalised communities and NGOs in programming, skill development and measurement and evaluation. My research interests focus on the use of recreation, sport and leisure to achieve a variety of goals including social inclusion and marginalised community development.

**My topic for the 10th ITW:**

**Cooperative sport and recreation games**

***It will be done as a practical session, so bring water and comfortable shoes!***
