

**MARKO ALEKSANDROVIĆ, Ph.D.,  
Assoc. Prof.**

**Faculty of Sport and Physical Education  
University of Niš, Serbia**

Marko Aleksandrović is an associate professor at the Faculty of Sport and Physical Education, University of Niš. He lectures courses on adapted physical activity at all three study levels. He realized several post-doc stays (in Sofia, Leuven, Ljubljana, Toledo and Thessaloniki). He is one of the founders of the ADAPTS (Association of Adaptive Swimming of Serbia), which has organized several international seminars with lecturers and participants from numerous countries, cooperates with the NPC Serbia and many academic institutions. He has successfully coached several swimmers with disability. On two separate occasions (2014 and 2015) was the director of an Istanbul international camp for swimmers with disability. His research focus is impact of physical activity at various populations with disability.

### **ITW topic**

#### **ADAPTED AQUATICS – INTRODUCTION, TYPES, INSTRUCTION, COMPETITION**

Adapted aquatics are wide range term that sublimates all aquatic activities of special populations (people with disability, elderly people, people with chronic disease, pregnant woman and new-born babies, infants...). Adaptations are present in access to swimming pool, transportations, equipment, instructions, competition rules...
