

List of Courses for Exchange Students

Faculty of Physical
Culture

Palacký University
Olomouc

- Please note that the selection of courses in the Mobility application tool is *preliminary* and you will be required to enroll the courses once more in our university information system [STAG](#) after your application is accepted.
- We reserve the right to make changes in the availability of courses.
- It is possible that students will not be able to enroll in all courses that they have in their Learning Agreements after they arrive at our faculty. The reason can be either a full capacity of a course, not reaching the minimum capacity of a course, or a timetable conflict. Therefore, we highly recommend choosing 1-3 “back-up courses” from the list, which could be recognized at student’s home institution in case some of the courses from their LA were not available.

* The course APA Winter Camp is held every year in a period between mid-January and end of January. Additional payments are needed for this course (accommodation and meals in the mountains, ski pass, transportation to the mountains etc.). The course is not suitable for complete beginners; at least basic skiing/snowboarding skills are presumed.

** Do not take the course Swimming if you are a complete non-swimmer! Students can improve their technique and learn new swimming styles, but they must be able to swim without problems before enrolling.

Courses Only for Physiotherapy Students

Faculty of Physical
Culture

Palacký University
Olomouc

- Students are required to select courses according to their year of study, based on which they are expected to have appropriate basic knowledge of the given problematic. The necessary knowledge required is listed in the prerequisites in the syllabus of each course in our information system [STAG](#) (down in the syllabus, section *Prerequisites*).
- Students of physiotherapy can, of course, choose any other courses according to their preference from the list of courses above, we recommend especially courses in the field of adapted sports for persons with physical disability; wellness and fitness; healthy lifestyle, etc.
- Please note, that the courses are taught at the premises of both the Faculty of Physical Culture and the Faculty of Health Sciences.
