FIELD: SUSTAINABILITY

JULY 10th TO 14th
IN PERSON

“SUSTAINABLE DEVELOPMENT: A BET FOR THE FUTURE”

Major Goals:

The Summer School of Sustainable Development: a bet for the future's main objective is to sensitize participants to the emerging issues of sustainability, providing them with a capacity to understand the importance of working on this topic in companies, as well as learning how they can do it. Bringing guests from the field every day, the Summer School will allow participants to gain a more practical knowledge.

ECTS:

6 or Certificate of attendance

Target:

University students or staff of companies, universities, NGOs and Associations who wish to deepen their knowledge in the sustainability theme.

Evaluation:

Participants must have a minimum of 90% attendance and must, at the end, prepare a final report, demonstrating the acquired learning.
